How the City Directory will help you

Some people regard the City Directory as merely a big book that cannot concern or be of any use to them, personally.

If they realized what it contains, and how it would answer many little questions that come up every day they would use it in their personal as well as business affairs.

Well, now—doesn't it concern you? It has your name, business and address correctly listed, where your friends looking for you will find it.

It has this same information about your friends, and anyone else in the city you may be interested to look up.

It has complete information about the business houses of the city, telling who sells what, and where. It has detailed accounts of progressive houses, who realize they will logically be looked for in the "Selling Section."

It tells how all the streets run, gives numbers at corners; the clearest map of the City; Buildings, Government, Societies, and a wealth of facts about the City that can only be appreciated by glancing at the Index.

You will be repaid for a little time spent in finding out how to use this book full of "Who and Where" information; repaid in convenience, in accuracy, and in time saved in your everyday affairs. **But be sure you use the latest** as an old edition will mislead you.

TROY STREET DIRECTORY

COPYRIGHT, 1924, SAMPSON & MURDOCK CO., INC.

Giving the name of each street and showing what other streets and places run from it or across it with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained; as for instance, wishing to know at what part of Second street No. 168 comes, look at Second street, and it is found that Liberty street crosses at 156, Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

Ciphers are substituted for numbers on streets not fully numbered.
